About

I am a B.Tech ECE student with a growing interest in software development, programming, and emerging technologies. I am currently building my technical skills in Java, object-oriented programming, and problem-solving while exploring how technology can be used to solve real-world problems.

Student at KL University dedicated to learning, innovation, and continuous personal growth. Passionate about technology, logical problem-solving, and effective communication. Actively looking for opportunities to collaborate on impactful projects and expand my network.

I enjoy learning new concepts, working on projects, and collaborating with others. I am looking forward to gaining practical experience, connecting with like-minded people, and growing as a future software professional.

Always learning, improving, and building!
